APPROVAL OF SALIDA PLANNED DEVELOPMENT ROAD ACCOUNT EXPENDITURE SUBJECT:

DISCUSSION: The Salida Planned Development Guidelines require various improvements to be constructed in the Salida area. The funding for these improvements include Mello-Roos bonds and a developer fee program. The developer fees, as outlined in the Planned Development Guidelines, are paid as building permits are issued. The fees are categorized by the types of improvements and the amounts are generated based on the estimated cost for each type of improvement.

> The completion of the project referenced below is a specific road project. The Salida Fee Committee has reviewed the request and found it to be appropriate for payment under the Salida fee programs. Acceptance of the assignment of the contracts and direct payments from the road account will keep the developers out of reimbursement situations. According to the fee programs, reimbursements are not made until the Mello-Roos projects are totally built-out and all facilities completed. Every effort is made to keep the developers from a reimbursement situation.

> O'Dell Engineering has submitted an invoice in the amount of \$9,400.00 for engineering services provided for the period June 16 through July 20, 2001 for the realignment of Pirrone Road. Pursuant to the fee programs, payment should be made equally from the Road-Supplemental-Environmental Impact Report accounts #1, 2 and 3.

> Upon review of the Salida Planned Development Guidelines and the road account balance, it is recommended that the Board of Supervisors authorize the following:

> 1. Approve Salida Road account expenditure in the amount of \$9,400.00 to O'Dell Engineering.

POLICY

ISSUE: Expenses for road construction are per the Stanislaus County Board of Supervisors

approved Salida Planned Development Guidelines.

STAFFING

IMPACTS: None.
