DISCUSSION:

Under the Health and Safety Code, Division 2.5, Chapter 4, Article 1, Section 1797.2900, "each community may develop an emergency medical services program". Since the early 1980's, Stanislaus County has contracted with the Mountain Valley Emergency Medical Services (MVEMS) Agency to administer local emergency medical service responsibilities. MVEMS Agency operates under a Joint Powers Agreement (JPA) designed to develop a regional system of emergency medical services care to collect special funding available to regional agencies. A Stanislaus County Supervisor sits as a member of the Joint Powers Board of Directors. Another member of the Board of Supervisors serves as an Alternate Director.

Historically, there have been three major responsibilities of the MVEMS Agency which are to establish and ensure a safe, dependable and responsible pre-hospital emergency medical care system, to serve as the Medical Health Operational Area Coordinator (MHOAC), and to protect the County from exposure to liability in matters related to the provision of pre-hospital emergency medical services within the County. The MHOAC role includes the authority to obtain and coordinate services and the allocation of resources in the event of a disaster or major incident in which mutual aid is requested.

There are two funding sources to meet the County's per capita annual contribution for the MVEMS Agency services. They are Ambulance Maintenance Fees and the Maddy Funds (SB12-612) provided by the State of California. For the Fiscal Year 2007-2008, the Ambulance Maintenance Fees total \$150,286, with the balance of \$63,528 paid from the Maddy Funds received by the County.

During the 2006-2007 contract year, the Board directed staff to explore alternatives to the arrangement with Mountain Valley Emergency Medical Services Agency. That analysis was performed and then presented to the Board of Supervisors on December 19, 2006. The Board's action at that time was to maintain the relationship with Mountain Valley Emergency Medical Services Agency with two changes to be effective July 1, 2007. The Medical Health Operational Area Coordinator (MHOAC) role was to be transferred from MVEMS to the County's Public Health Officer and secondly, performance standards were to be incorporated into the contract. Prior to entering the contract for the current 2007-2008 Fiscal Year, the Public Health Officer, the Managing Director of the Health Services Agency and the Chief of the Office of Emergency Services, all representing Stanislaus County, worked with MVEMS' management to negotiate performance standards and to coordinate the transfer of the MHOAC role. The performance standards are attached.

As a means of ensuring a collaborative effort and to monitor the performance of the contract, the Public Health Officer, the Managing Director of the Health Services Agency and the Chief of the Office of Emergency Services established a meeting schedule with the management of the MVEMS. This team effort has been an effective

Page 3

approach to improve communication, collaboration and problem-solving. These meetings are intended to continue on at least a bi-monthly basis. MVEMS has been adhering to the performance standards within the contract.

Because the contract terms include a one hundred eighty day termination notice, staff is reporting on the status of our relationship at this time and requesting approval to continue the relationship and enter into the contract for the Fiscal Year 2008-2009. The contract amount will be included in the Health Services Agency budget when presented in June of 2008.

This information has been discussed with Supervisor DeMartini, who sits on the Joint Powers Committee, and he supports the recommendation.

POLICY ISSUES:

Board approval of this contract will continue Stanislaus County's support of mandated services for residents served by the Mountain Valley Emergency Medical Services Agency and supports the Board's priorities of a safe community and a healthy community.
