4/5 Vote Required YES NO

SUBJECT:

Approval of Amendment No. 1 to the Agreement with GDR Engineering to Include Additional Engineering Services for the Salida Boulevard Corridor Plan Project

STAFF RECOMMENDATIONS:

1. Approve Amendment No. 1 to the Agreement with GDR Engineering to include additional engineering services for improvements associated with the Salida Boulevard Corridor Plan Project.
2. Authorize the Director of Public Works to execute the amendment to the Agreement with GDR Engineering for the Salida Boulevard Corridor Plan Project.

FISCAL IMPACT:

The estimated total cost of the project is \$2,800,000. The project is funded by the following sources: \$1,800,000 of Environmental Impact Report Traffic Mitigation Fees (EIR), \$500,000 EIR Salida Storm Drain Funds, \$250,000 Stanislaus County Redevelopment Funds, and \$250,000 Stanislaus County Public Works Road Fund-Proposition 1B monies. At this time, \$9,000 is needed for additional engineering design services associated with delivering the improvement project.

File No.

Approval of Amendment No. 1 to the Agreement with GDR Engineering to Include Additional Engineering Services for the Salida Boulevard Corridor Plan Project

DISCUSSION:

This project consists of improvements to Salida Boulevard from Pelandale Avenue to the northern end. The original improvements consisted of sidewalks, street lighting, a new traffic signal at the intersection of Salida Boulevard and Broadway Avenue, drainage improvements, overlaying of the existing pavement, abandonment of Cloutier Road, access driveways for the properties adjoining Cloutier Road, and striping and landscaping. Landscaping was removed from the project due to the recent failure of the ballot procedure to form the Salida Boulevard Landscape and Lighting District that would include this element.

In August 2007, the Board of Supervisors awarded a consulting service contract to GDR Engineering for the design of the Salida Boulevard Corridor Plan Project. During the design process, it became apparent that additional curb, gutter and sidewalk were needed at the intersection of Salida Boulevard and Broadway Avenue. Subsequent design changes are needed for the width of the roadway and the complexity of the right-of-way abandonment for Cloutier Drive. In addition, GDR Engineering was directed by staff to include the free right turn lane on Salida Boulevard, turning onto eastbound Broadway Avenue. Staff has been negotiating with GDR Engineering on this additional scope of work and cost and recommends that Amendment No. 1 be approved in the amount of \$9,000.

POLICY ISSUES:

The Board should consider if the recommended actions are consistent with its priorities of providing a safe community, a healthy community and a well-planned infrastructure system.

STAFFING IMPACT:

There is no staffing impact associated with this item.
