

Approval to Adopt the 2010 Stanislaus County Maintained Mileage Report

DISCUSSION:

The Streets and Highways (S&H) Code confers upon the Board of Supervisors the authority, duties, and limitations that have to do with the establishment and maintenance of the county road system. All agencies are required to submit an annual Maintained Mileage Report to the California Department of Transportation (Caltrans). The previous maintained mileage report was adopted by the Board of Supervisors on June 30, 2009.

The main objective of this activity is to supply the necessary information for distribution of HUTA funds in accordance with Section 2104 of the S&H Code.

Submitted in this report of the County maintained mileage, as required by Section 2121 of the Streets and Highway Code, are the following:

1. Exhibit "A" - 2010 Maintained Mileage Report - Green highlighting indicates changes to the road mileage.
2. Exhibit "B" - A summary of road segments that were annexed into city limits from the maintained mileage road system in 2010.

In a few instances, limit lines were adjusted due to previous mapping errors from the State Census data, but the road mileage was not affected.

The total maintained mileage at present is 1524.438 miles. This is a net decrease of 2.602 miles from the previously approved report from June 30, 2009. All exhibits are on file with the Clerk of the Board of Supervisors.

POLICY ISSUES:

The Board of Supervisors should consider if the recommended actions are consistent with its priority of providing A Well Planned Infrastructure System. Approval of the maintained mileage is an integral part of Public Works' funding for road maintenance and repair through HUTA fund allocation.

STAFFING IMPACT:

There are no additional staffing impacts associated with this item.

CONTACT PERSON:

Andrew Malizia, Public Works Assistant Engineer. Telephone: 209-525-4130.
