FISCAL IMPACT: (continued)

This agenda item includes a recommendation to initiate a Request for Proposal (RFP) process to seek qualified vendors for a new long-term agreement for workers' compensation TPA services. There is no direct fiscal impact associated with this item. County staff will return to the Board of Supervisors for approval of a successor TPA upon the completion of the new RFP process, at which time any potential fiscal impact to the workers' compensation program will be addressed.

The workers' compensation program is funded through contributions from departments based on each department's risk exposure and prior claims history. Total cost of the workers' compensation program in FY 2012-2013 is projected to be \$5.3 million, which includes administration, excess insurance premiums and claim payments.

DISCUSSION

The County currently contracts with Acclamation Insurance Management Services (AIMS) to provide Third Party Administrator (TPA) services in the workers' compensation program. The initial term of this contract was from January 1, 2009 through June 30, 2012. In preparation for its expiration, staff from CEO-Risk Management and General Services Agency Purchasing Division (GSA) initiated a Request for Proposal (RFP) for TPA services. This RFP was issued on February 2, 2012 and closed on March 9, 2012. A Notice of Intent to Award was issued on April 11, 2012 and on May 22, 2012 the resultant contract was presented to the Board for approval. The Board, however, denied approving the agreement and directed staff to return to the RFP process. On June 5, 2012, the Board of Supervisors approved the extension of the current contract with AIMS on a month-to-month basis at a rate of \$50,196 per month to ensure the continuity of required TPA services while a new RFP was developed.

Staff from CEO-Risk Management and GSA have developed a new RFP with revisions to the evaluation criteria and modified guidelines for submitting pricing proposals. The updated RFP evaluation criteria provides a greater emphasis on the core program responsibilities for providing claims administration services. Information will be obtained through the RFP process to identify vendors who provide a greater value to the County in the efficiency of managing workers' compensation claims through the use of technology or other innovative business processes that may demonstrate savings to the County. The following is a summary of the total scoring categories proposed for the new RFP process:

SECTION ONE—INTRODUCTION

1.1 Statement of Purpose

The County of Stanislaus (County) is seeking competitive proposals from qualified third party administrators (TPA) to partner with the County in providing claims administration services as required by law and in accordance with County policy for its self-insured workers' compensation program. The County seeks providers with a proactive organized system of service delivery designed to coordinate the medical and financial needs of the County's injured workers in a timely, cost-effective manner focusing on quality care and early return to work.

It is the County's intent to contract with an experienced TPA to provide claims administration and medical cost containment services for all new and existing self-funded workers' compensation claims on or about July 1, 2013. The County desires a comprehensive approach to providing claims administration and managed care services in the workers' compensation program. The County reserves the right to contract for ancillary services with alternate vendors throughout the term of the intended agreement. Qualified organizations having significant experience with self-insured California public entities, counties or cities, and demonstrated competence in the administration of self-insured workers' compensation claims programs are invited to submit proposals. The anticipated term of the contract shall be from July 1, 2013 to June 30, 2016.

The selected proposer must meet all the requirements and expectations listed, as well as all the general contractual requirements mandated by the County. Any specifications and processes defined in this Request for Proposal (RFP) reflect the current environment, but in no way limit response to this solicitation. All proposers, however, must explain thoroughly, how their offering meets the minimum service and deliverable expectations specified in the RFP. Award shall be made to the proposer whose proposal is determined in writing to (a) best meet the criteria set forth herein and (b) provide the best value to the County.

This RFP contains the instructions governing the requirements for proposals including the format in which proposal information is to be submitted and the material to be included; the requirements that must be met to be eligible for consideration; and the responsibilities of the proposer before and after implementation.

The successful proposer shall work and cooperate with the County's Disability Management Unit and selected ancillary service providers at no additional cost to the County.

Background

Stanislaus County is located in California's Central Valley and employs approximately 3,450 full time or part-time employees, each of whom are covered by the County's self-insured workers' compensation program. County employees work within 31 departments or agencies. Of the total number of employees, approximately 540 are public safety employees working in the Sheriff's Department, Probation Department, and the District Attorney's Office. Public safety personnel are governed by the salary continuation requirements of California Labor Code 4850 and other applicable sections of the California Labor Code. All full-time employees are subject to the County Employee's Retirement Law of 1937 ("1937 Act"). The County has collective bargaining agreements with various employee organizations. The estimated annual payroll for the 2012/2013 fiscal year is \$192,070,570 with employees serving a population of 530,584 county citizens. The County's estimated total payroll for the 2011/2012 fiscal year was \$208,319,064 and the actual payroll was \$208,859,235.85. Designated volunteers, court-ordered work furlough participants, and inmates may be also eligible for workers' compensation benefits. Additional information about Stanislaus County can be found on the County's web site at www.stancounty.com.

Currently the County maintains a self-insured retention (SIR) of \$500,000 per incident and is a member of the CSAC-Excess Insurance Authority (CSAC-EIA), a Joint Powers Authority (JPA) that provides excess workers' compensation coverage.

The County's current administrator is Acclamation Insurance Management Services (AIMS) and Allied Managed Care, Inc., is the current managed care provider. The County utilizes a medical provider network (MPN) which is in the name of the County. Most of the MPN is in northern California. The providers outside of the local area are primarily Kaiser providers. A complete copy of the MPN is attached hereto as Appendix F. The successful proposer will be required to assist the County in refiling a MPN containing most if not all of the existing providers. If the proposer does not currently have access to any of the existing MPN providers, the proposer shall identify these providers and advise if they will be seeking to contract with the provider prior to the contract being awarded or to identify alternate proposed physicians within their existing PPO network(s).

The County primarily uses the firms of Twohy, Darnielle & Frye and Cuneo, Black, Ward & Missler for defense and Status Investigative Group for investigations. The County will consider adding additional firms as needed.

The County has a Disability Management Program including an aggressive Return to Work program. The claims examiners and support staff work closely with the County's Disability Management Unit.

As of June 30, 2012, the County had 471 open claims, of which 169 were Future Medical, 264 Indemnity and 38 Medical-only claims.

Appendix G includes the past five years of the County's Self Insurance Plan annual reports.

1.2 Scope of Services

The County has identified the proposed Scope of Work included as Appendix B. This proposed Scope of Work will be used as the basis for negotiating the final Scope of Work for inclusion in the resultant agreement. The RFP contains the minimum list of services and deliverables the selected proposer is expected to provide the County.

1.3 Contract Duration

The County intends to enter into a contract with an effective period of three (3) years. The County reserves the right to extend this contract on a year-to-year basis; however, in no case shall the renewal extend beyond two (2) years from the expiration date of the original Agreement. An extension of the term of this contract will be affected through an amendment to the contract. If the extension of the contract necessitates additional funding beyond that which was included in the original contract, the increase in the County's maximum liability will also be affected through an amendment to the contract and shall be based upon rates provided in the original contract and proposal.

1.4 Proposal Deadline

Original proposals shall be submitted no later than the Proposal Deadline time and date detailed in the Section 2, RFP Schedule of Events. Proposals shall clearly identify the Project Name, RFP Number, and RFP response date on the outside of the envelope and be delivered in a sealed envelope. Failure to do so will cause the proposal to be rejected. It is the County's recommendation that the delivery method chosen require a receipt confirmation. Proposers shall

respond to the RFP and any exhibits, attachments, or amendments. A proposer's failure to submit a proposal as required before the deadline shall cause the proposal to be disqualified.

Proposers assume the risk of the method of dispatch chosen. The County assumes no responsibility for delays caused by any delivery service. Postmarking by the due date shall not substitute for actual proposal receipt by the County. Late proposals shall not be accepted nor shall additional time be granted to any potential proposer.

Proposals may not be delivered orally, by facsimile transmission, or by other telecommunication or electronic means unless specifically requested by Stanislaus County General Services Agency (GSA).

1.5 Nondiscrimination

No person shall be excluded from participation in, denied benefits of, discriminated against in the admission or access to, or discriminated against in treatment or employment in the County's contracted programs or activities on the grounds of disability, age, race, color, religion, sex, national origin, or any other classification protected by federal or California State Constitutional or statutory law. Additionally, no person shall be excluded from participation in, denied benefits of, or otherwise subjected to discrimination in the performance of contracts with the County or in the employment practices of the County's proposers. Accordingly, all proposers entering into contracts with the County shall, upon request, be required to show proof of such nondiscrimination and to post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

1.6 Assistance to Proposers with a Disability

Proposers with a disability may receive accommodation regarding the means of communicating this RFP and participating in this procurement process. Proposers with a disability should contact the RFP Point of Contact identified in Section 3.1 to request reasonable accommodation no later than the deadline for accommodation requests detailed in the Section 2, RFP Schedule of Events.

Within thirty (30) days after the proposal opening, a contract may be awarded by the County to the proposer whose proposal is determined in writing to be the best value to the County, taking into consideration price and adherence to the specifications set forth herein. The time for awarding a contract may be extended at the sole discretion of the County, if required to evaluate proposals or for such other purposes as the County may determine.

All other information shall be considered public after the award of the RFP.

4.3 Public Records Act

All proposals become public information no later than after the award of the RFP, with the exception of those portions of a proposal that are identified at the time of the submittal by the proposer as “Confidential” or “Proprietary” and which are reasonably deemed by the County as not being public documents that must be disclosed under applicable sections of the California Public Records Act and other appropriate statutes and regulations.

4.4 Modification of Scope of Work

The Scope of Work may be amended to meet available funding or to best meet the needs of the County. In the event that any additional services are required as identified herein, the County reserves the right to add such services by amending the contract.

4.5 Right of County to Reject Proposals

The County reserves the right to reject any and all proposals or any part of the proposals, to waive minor defects or technicalities, or to solicit new proposals on the same project or on a modified project that may include portions of the originally proposed project, as the County may deem necessary.

All proposals received after the time specified in this Notice will not be considered and will be returned unopened.

4.6 Examination of Proposal Documents

Proposers shall carefully examine the specification and satisfy themselves as to their sufficiency, and shall not at any time after submission of the proposal, dispute or complain of such Specifications and the directions explaining or interpreting them. Any questions or concerns that arise shall be submitted in writing to the contact person identified in Section 3.1 prior to the question deadline.

Should a proposer find discrepancies in, or omissions from, the specifications, or should the undersigned be in doubt as to their meaning, the undersigned shall at once notify the Stanislaus County Purchasing Division. Notification is to be in written form and must be submitted at least ten (10) days prior to the proposal closing date. Any interpretations by the County will be made in the form of a written addendum. Any change in requirements will also be done in the form of a

written addendum. The receipt of any resulting amendment must be acknowledged in accordance with the directions on the amendment. **Oral explanations or instructions given before the award of the contract will not be binding.**

4.7 Insurance Provisions

The "Insurance Provisions" contained in Section 6 of the Sample Agreement are hereby made a part of this RFP and any resultant contract. The proposer shall acknowledge in their proposal responses their ability to meet the below insurance requirements and the requirements contained in the Sample Agreement. All exceptions to the insurance requirements must be communicated in writing and included with the proposal response. The proposer awarded the Agreement shall provide the County with a Certificate of Insurance and endorsements meeting and/or containing the following:

7. Waiver of subrogation (Worker's Compensation Page 31 of the Sample Agreement);
8. Carrier admitted/licensed to issue insurance in California; and
9. Best's rating of no less than A-, and Financial Size Category of at least VII.

An "Insurance Checklist" is included in this RFP package on Page 23.

4.8 Sample Agreement

A Sample Agreement is attached solely for the purpose of informing the proposer of the fixed, predetermined, standard contract provisions with which they will be required to comply and, with the exception of the insurance requirements set forth therein and described in detail in section 4.7 above, do not constitute requirements of this RFP. These provisions are subject to revision by the County at any time prior to the signing of the agreement.

The submission of a proposal shall be considered an agreement to all the terms, conditions (including insurance requirements) and specifications set forth in this RFP and in the various proposal documents, unless specifically noted otherwise in the proposal.

2. One marked “QUALIFICATION PROPOSAL” which shall consist of items set forth in section 5.3.2 below (note that an original and five copies are required); and
3. One marked “PRICING PROPOSAL” which shall include pricing/fee schedule only using the Pricing Proposal attached hereto as Appendix D and as described in section 5.3.3 below (note that an original and five copies are required).

5.2 Proposal Submittal

Proposals shall be submitted to the General Services Agency Purchasing Division at the place and time specified in this notice.

5.3 Proposal Elements

The “PROPOSAL” response shall be divided into three parts:

- Part One—Financial Reports**
- Part Two—Qualification Proposal**
- Part Three—Pricing Proposal**

Each part shall be preceded by an 8 ½” by 11” tab divider, with each part clearly labeled. Proposal documents not identified above shall be included in a section labeled “Other RFP documents.”

Below are the detailed elements of part of the proposal. The actual scope of work is detailed in Appendix B, page 44, **which sets forth in red text additional items that are to be provided as part of the Qualification Proposal.** Proposers shall address these elements as indicated:

5.3.1 Part One—Financial Reports

Proposers are required to submit only one copy of Financial Reports (using U.S. dollars) in original response only, which includes detailed information about the proposer’s financial condition, which includes the following information:

1. Provide audited financial statements for the three (3) most recent fiscal years for which the statements are available, and interim if available. The statements must include balance sheet, income statement, and a statement of cash flows. Statements must be complete with opinion, notes, management letters, and conform to Generally Accepted Accounting Practices (GAAP). If no audited statements are available, explain why and submit unaudited financial statements. Statement of Income and Retained Earnings, last five (5) years, prepared by an independent auditing firm.
2. Proof of insurance satisfactory and acceptable to the County as evidence that insurance meets the requirements set forth in Section 6, Insurance, of the Sample Agreement included in the RFP package.
3. List of bonding and insurance companies, including addresses, telephone numbers, and contacts.
4. Identify what percent of proposer's annual revenue this contract shall represent.

Please note that Proposers may not submit income tax returns in lieu of the above requested items.

5.3.2 Part Two—Qualification Proposal

Proposers are required to address each element of qualifications as identified in Appendix C.

1. Describe any and all proposed exceptions, alterations or amendments to the Scope of Work or other requirements of this RFP, including the Standard Contract language (see Appendix A). The nature and scope of the firm's proposed exceptions may affect the evaluation of its submittal and the County's determination of whether it is possible to successfully negotiate a contract with such firm.

5.3.3 Part Three—Pricing Proposal

1. Proposers shall complete the Pricing Proposal included with this RFP as Appendix D for submission as part of the RFP response in a separate sealed document. All pricing shown on the Pricing Proposal shall be expressed in U.S. dollars, and shall be used as the basis for calculating the score in Phase III of the Evaluation Process. Proposers may submit an alternate pricing proposal separately in addition to the required Pricing Proposal. Such alternate pricing will not be considered as part of the evaluation process but may be incorporated into the final agreement.
2. The proposer shall provide pricing for a period of time as described in Section I, Item 1.3; Contract Duration. Should the County and the successful proposer mutually agree to renew the Agreement, the pricing provided by the proposer in its RFP response for the subsequent years shall be utilized.
3. ALL cost incurred and billed to the County, including labor, materials, overhead and profit shall be included in the responses to items 1, 2, and 3 above.

5.4 Pricing Evaluation

In determining the amount proposed by each proposer, the County shall disregard the mathematical errors in addition, subtraction, multiplication and division that appear obvious on the face of the proposal. When an item price is required to be set forth in the proposal and the total for the item set forth separately does not agree with a figure which is derived by multiplying the item price times the County's estimate of the quantity of work to be performed for said item, the item price shall prevail over the sum set forth as the total for the item unless, in the sole discretion

of the County, such a procedure would be inconsistent with the policy of the proposal procedure. The total paid for each such item of work shall be based upon the item price and not the total price.

Should the proposal contain only a total price for the item and the item price is omitted, the County shall determine the item price by estimated quantities of work to be performed as items of work. If neither the item price nor the total price for the item is provided, then the proposal shall be deemed incomplete and, therefore, shall be rejected.

SECTION SIX—EVALUATION CRITERIA AND PROPOSER SELECTION

6.1 Evaluation of Proposals

This section identifies the selection process, evaluation criteria, and steps used in evaluating Proposer responses. Award shall be made to the proposer whose proposal is determined in writing to (a) best meet the criteria set forth herein and (b) provide the best value to the County. The following describes the evaluation process and associated components.

6.2 Selection Process

The County shall for the purpose of evaluating the proposals received in response to this RFP, establish an Evaluation Committee (EC) composed of representatives from the County. The County may elect to include as part of the EC qualified representatives from other agencies or entities.

Proposal documentation requirements set forth in this RFP are designed to provide guidance to the proposer concerning the type of information that shall be used by the EC. Proposers shall be prepared to respond to requests by the EC for oral presentations, facility surveys, and other items deemed necessary to assist in the detailed evaluation process. Proposers are advised that the County, at its option, may award this proposal on the basis of the initial proposals.

6.3 Evaluation Phases

It is anticipated that the following steps will be performed by the EC in evaluating proposals; however, a strict observance to the Evaluation Steps is not required. A description of each evaluation step is provided.

- Phase I Review and Evaluate Proposal Submission and Financial Report
- Phase II Evaluation of Qualification Proposal
- Phase III Evaluation of Pricing Proposal
- Phase IV Presentation and Interview
- Phase V Reference Checks and Audit Results

6.3.1 Phase I: Pass/Fail

Phase I is a pass/fail evaluation for submission completeness and financial review. Purchasing will conduct a pass/fail analysis of (a) each submitted Proposal for completeness and (b) the financial stability of each proposer. During Phase I, the Pricing Proposals will remain unopened and be retained by Purchasing. Upon completion of its analysis, Purchasing, will forward those Qualification Proposals that have passed Phase I the EC. The RFP Pricing/Fee Schedules will remain with Purchasing until the EC has completed Phase II of the evaluation process.

6.3.2 Phase II: Evaluation of Qualification Proposal

In Phase II, the EC will review and evaluate the proposals and the qualifications of the proposers and each proposer will be given a score. Each member of the EC shall rate the proposals separately. The scores of each member of the EC shall then be averaged to provide a total score for each of the proposers. Those proposers receiving a score of 75 or above of the available 100 points will qualify for the Initial Short List and will proceed to Phase III of the process.

6.3.3 Phase III: Evaluation of Pricing Proposal

In Phase III, Purchasing shall forward all Pricing Proposals to the EC for evaluation. Price shall be evaluated based upon a weighted average, with the lowest price assigned 100% of the 100 points possible. The proposers receiving the five (5) highest scoring Pricing Proposals shall proceed on to Phase IV.

6.3.4 Phase IV: Presentation and Interview

During Phase IV, reference checks will be performed, and the audit results evaluated. Those proposers receiving a score of 25 or above of the available 50 points will proceed on to Phase V of the process.

6.3.5 Phase V: Reference Checks and Audit Results

During this final phase, proposers shall be interviewed by the EC. Proposers participating in Phase V shall also be permitted to make a thirty-minute presentation to the EC. Each member of the EC shall rate the presentations and interviews separately with a score of up to 50 available points. The scores of each member of the EC shall then be averaged to provide a total score for each of the proposers.

7.2 Contract Payments

No payment shall be made until the contract is fully executed and approved as required by County ordinances and regulations. Under no conditions shall the County be liable for payment of any type associated with the contract or responsible for any work done by the proposer regardless of whether work was done in good faith and upon verbal direction to proceed with the delivery of services, if such direction occurs before (a) the contract start date specified by the contract or (b) contract approval by County officials as required by applicable statutes and rules of the County of Stanislaus.

7.3 RFP and Proposal Incorporated into Final Contract

This RFP and the successful proposal shall be incorporated into the final contract.

7.4 Contract Monitoring

The successful proposer shall be responsible for the completion of all work set out in the contract. All work is subject to inspection, evaluation, and acceptance by the County. The County may employ all reasonable means to ensure that the work is progressing and being performed in compliance with the contract. If the County requires such an inspection, the successful proposer shall provide reasonable access and assistance.

7.5 Contract Amendment

During the course of this contract, the County may request the successful proposer to perform additional work for which the successful proposer would be compensated. Such work shall be within the general scope of this RFP. In such instances, the County shall provide a written description of the additional work, and the successful proposer shall submit a time schedule for accomplishing the additional work and a price for the additional work based on the rates included in the successful proposer's response to this RFP. If the County and the successful proposer reach an agreement regarding the work and associated compensation, said agreement shall become effective by means of a contract amendment. Any such amendment requiring additional work must be mutually agreed upon by the parties and signed by the successful proposer and the head of the procuring County agency and must be approved by other County officials as required by County laws and regulations. The successful proposer shall not commence additional work until the County has issued a written contract amendment and secured all required approvals.

EXHIBIT B TO AGREEMENT FOR PROFESSIONAL SERVICES
Performance Based Contract Provision –TPA

CSAC Excess Insurance Authority will conduct an biannual claims audit, which will be used as one of the bases for evaluating performance, in addition to providing timely, and accurate claim data as requested.

The claims audit will evaluate compliance with the CSAC EIA Workers' Compensation Claims Administration Guidelines (claim guidelines). The claims audit will measure the percentage of compliance achieved in each of six (6) selected audit categories.

If the claims audit composite score ranges between 90% or above, there would be no change to the claims administration fees. However, if the audit score is below 90%, penalties to the claims administration fees would apply. If the composite score is less than 90% the Penalty procedure outlined in the following section (Penalty Calculation) will apply.

If the performance as identified by the audit is at a level significantly below the 90% composite score noted previously, such that the County schedules an interim audit with an independent auditor, the cost of said interim audit will be Consultant's responsibility to reimburse the County upon submission of the paid invoice.

Penalty Calculation

Consultant can be assessed a penalty for each of the audit categories listed below. The penalty will be determined as follows:

- Compliance below the Performance Standard will be assessed a penalty per category as noted in the table below;
- The total penalty will not exceed \$6,000 in a year.

Audit Category	Performance Standard	Penalty
3 pt Contact	93% -95%	\$1,000 (per fiscal year)
Communication (Phone Calls/Correspondence)	93% -95%	\$1,000 (per fiscal year)
Reserving	98%-100%	\$1,000 (per fiscal year)
Disability Management	93% -95%	\$1,000 (per fiscal year)
Defense of Litigated Claims	93% -95%	\$1,000 (per fiscal year)
Excess Reporting	93% -95%	\$1,000 (per fiscal year)

Auditor Controls

In conducting the biennial audit, the auditor will limit the evaluation to areas directly under Consultant's control. The audit will be limited to activity performed by Consultant since the previous audit. The sample size obtained for each audit category shall be at least forty (40) files representing all County claims, or that audit category will be disregarded. As respects the audit category of "Reserving", the auditor shall consider a file to be in compliance if reserve changes are properly considered and documented and the auditor's reserve recommendation is within 5% of the indicated reserve; however, in the event of a dispute the independent auditor's final opinion will be the determining factor.

Payment of Penalty

The penalty shall apply to claims administration fees earned during the July 1st to June 30th contract year during which the audit is completed. The penalty shall be payable in equal monthly installments over the contract year immediately following the subject audit year. (For example, if the audit is completed during the 2012/13 contract year, the penalty shall be assessed during the 2012/13 contract year fees and will be paid in monthly installments during the 2013/14 contract year.) The penalty is separate from the annual administration fee. Should this contract be cancelled, or not renewed beyond the term of this Agreement, the balance of the penalty shall be payable within thirty (30) days of the termination or non-renewal.

Claim Reports

The monthly, quarterly and annual claim reports be fully checked for quality prior to submitting to the County, and will be provided by or before the 15th of the month. Failure to provide accurate and timely reports will result in a \$100 penalty for the first report missed. Late or inaccurate reporting penalty will be capped at \$2,500 for each contract year, with the penalty being assessed at the end of that contract year. If the County is required to re-request data due to errors identified, or the reports are submitted after the indicated due date and time, the penalty provision will apply.

APPENDIX E

Stanislaus County Performance Based Contract Provision - TPA

CSAC Excess Insurance Authority will conduct a biennial claims audit, which will be used as one of the bases for evaluating performance, in addition to providing timely, and accurate claim data as requested.

The claims audit will evaluate compliance with the CSAC EIA Workers' Compensation Claims Administration Guidelines (claim guidelines). The claims audit will measure the percentage of compliance achieved in each of seven (7) selected audit categories.

If the claims audit composite score is below 90%, penalties to the claims administration fees would apply as outlined below.

If the performance as identified by the audit is at a level significantly below the 90% composite score noted previously, such that the County schedules an interim audit with an independent auditor, the cost of said interim audit will be the responsibility of TPA to reimburse the County upon submission of the paid invoice.

Penalty Calculation

TPA can be assessed a penalty of up to \$7,000 or \$1,000 for each of the audit categories listed below where the composite rating for a category is 90%:

Audit Category

- Medicare Reporting
- Three Point Contact
- Indexing
- Disability Management
- Reserving
- Reimbursement & Recovery
- Excess Reporting

Auditor Controls

In conducting the annual audit, the auditor will limit the evaluation to areas directly under TPA's control. The audit will be limited to activity performed by TPA since the previous audit. The sample size obtained for each audit category shall be at least forty (40) files representing all County claims, or that audit category will be disregarded. As respects the audit category of "Reserving", the auditor shall consider a file to be in compliance if reserve changes are properly considered and documented and the auditor's reserve recommendation is within 5% of the indicated reserve. However, in the event of a dispute the independent auditor's final opinion will be the determining factor.

Payment of Penalty

The penalty shall apply to claims administration fees earned during the July 1st to June 30th contract year during which the audit is completed. The penalty shall be payable in equal monthly installments over the contract year immediately following the subject audit year. (For example, if the audit is completed during the 2012/13 contract year, the penalty shall be assessed during the 2013/14 contract year.) The penalty is separate from the annual administration fee. Should this contract be cancelled, or not renewed beyond the term of this Agreement, the balance of the penalty shall be payable within thirty (30) days of the termination or non-renewal.

Claim Reports

The monthly, quarterly and annual claim reports are to be fully checked for quality prior to submitting to the County, and will be provided by or before the 15th of the month. Failure to provide accurate and timely reports will result in a \$100 penalty for the first report missed. Late or inaccurate reporting penalty will be capped at \$2,500 for each contract year, with the penalty being assessed at the end of that contract year. If the County is required to re-request data due to errors identified, or the reports are submitted after the indicated due date and time, the penalty provision will apply.
