SUBJECT:

Approval to Set a Public Hearing on April 29, 2014, at 9:05 a.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees, and Amend or Eliminate Existing Fees for the Department of Environmental Resources

STAFF RECOMMENDATIONS:

Set a Public Hearing on April 29, 2014, at 9:05 a.m. to introduce and waive the first reading of an ordinance to establish new fees, and amend or eliminate existing fees for the Department of Environmental Resources.

FISCAL IMPACT:

The proposed fee adjustment would consist of new fees for water well permit issuance appeals and a State-mandated surcharge for the Aboveground Petroleum Storage Tank Act oversight. Other fee adjustments include increases in agricultural and irrigation water well permits, adjustments to landfill tipping fees which include an increase in the ash tipping fee, a temporary lowering of the landfill tipping (Continued on Page 2)

Approval to Set a Public Hearing on April 29, 2014, at 9:05 a.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees, and Amend or Eliminate Existing Fees for the Department of Environmental Resources

**FISCAL IMPACT (CONTINUED):**

fee, the addition of box springs to the mattress disposal fee, and the elimination of the Oakdale Drop-off bulky item fee.

The Department of Environmental Resources' (Department) proposed fee adjustments pertaining to water wells consist of an increase in fees for private agricultural/irrigation well permits, well installations and destructions without a valid permit, clarification of existing well fee verbiage, and new fees for well permit issuance appeals. The proposed changes to the water program will result in a revenue increase of approximately \$25,000 annually.

The Department will be collecting the applicable State Surcharge fee annually, on behalf of the State, from each regulated business in the Aboveground Petroleum Storage Act Program in Stanislaus County. The Health and Safety code designates the County to collect the additional surcharge for the Office of the State Fire Marshal. The total revenue anticipated every year from approximately 200 facilities would be \$5,200. The amount would then be transferred to the Office of the State Fire Marshal.

The Fink Road Landfill (Landfill) ash tipping fee will increase from \$26.23 per ton to \$26.63 per ton, for an estimated annual increase of \$25,000 to the Landfill Operating Fund. A reduction in the landfill tipping fee, from \$33 per ton to \$30 per ton, would be in effect for a 90-day trial period. The \$3 per ton loss in revenue is anticipated to be offset by the revenue the County would receive from the additional waste tonnage that is currently being exported out-of-county. The economies of scale in Landfill operations are such that the additional solid waste the Landfill would receive during this trial period would not increase overall operational costs and is anticipated to increase revenue to the Landfill by approximately \$90,000. The elimination of the Solid Waste Oakdale Drop-off bulky item collection program surcharge fee of \$10 per load will have no fiscal impact to the Department as this program ended in 2007.

**DISCUSSION:**

The Department of Environmental Resources (Department) charges fees for services it provides in the program areas of Code Enforcement, Environmental Health, Hazardous Materials, Landfill, Milk and Dairy, and Solid Waste. State law mandates that fees charged for services cannot exceed actual costs and must be used to cover the costs of implementing the programs.

Annually, in preparation for the Proposed Budget, the Department evaluates the program costs and the fees associated with programs administered. This process includes the consideration of new or additional fees, where appropriate, as well as modifications to existing fees in order to cover the program costs. The recently conducted fee survey of comparable counties in the state found that proposed fees are in-line with other counties of comparable demographics. This year the Department is proposing the creation of new fees for Water Well Permit Issuance Appeals and the State surcharge for the Aboveground Petroleum Storage Tank Act Program. Modifications to existing fees include increases to agricultural and irrigation water well permits,

Approval to Set a Public Hearing on April 29, 2014, at 9:05 a.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees, and Amend or Eliminate Existing Fees for the Department of Environmental Resources

the ash tipping fee from the Waste-to-Energy (WTE) facility, and a 90-day trial decrease in the Landfill tipping fee. Lastly, the Department is proposing to eliminate the Oakdale Drop-off bulky item fee. There are no proposed fee changes for Code Enforcement or the Milk and Dairy Division. The details on the recommended changes follows.

#### *Water Well and Issuance Appeal Fees*

Environmental Health is responsible for the issuance of well construction and well destruction permits. This requires the inspections of such wells in the unincorporated areas of Stanislaus County. 382 well permits were issued in 2013. Of the 382 well permits issued, 217 permits were for the construction of agricultural/irrigation wells. Due to record dry conditions, many agricultural landowners concerned with the ability to provide their land with an adequate water supply have turned their attention to onsite groundwater sources. Growing concerns related to agricultural water usage, drought conditions, and overall supplies have resulted in the need for the Department to implement greater data collection measures and oversight of the county's groundwater resources. Additional revenue is necessary to provide for database development, staff costs, training, clerical support, equipment, travel expenses, and general office and meeting supplies for the groundwater program.

This year's fee proposal will include a change of fee structure for all well permit types from a flat fee to a tiered structure. Well permit types will now have a tiered structure of "agricultural/irrigation," "private," or "public." All well types, with the exception of "agricultural, irrigation" and "public" will fall under, "private." Since increased resources are primarily devoted to addressing agricultural/irrigation well issues, fee increases will only be applied to agricultural/irrigation fee descriptions.

The Model Well Standards Ordinance became effective in Stanislaus County on February 15, 1990. Per Chapter 2.1.2 of the Ordinance, the penalty for commencing any work for which a permit is required without having obtained a permit is payment of double the standard permit fee. This discrepancy has been brought to the Department's attention and subsequently, "well installation without a valid permit" and "well destruction without a valid permit" fees are proposed to increase to double the fee if a well is found to be installed or destroyed without Department approval in order to be consistent with the Model Well Standards Ordinance adopted in accordance with Water Code Section 13801.

The current fee schedule offers a "variance/exemption/waiver." For clarification purposes, the nomenclature has been modified to read, "public or private variance/exemption/waiver." An applicant that requests an exemption, variance, or waiver of any applicable requirement of any regulation shall reimburse the Department for the costs incurred in processing the request at the current weighted labor rate with a two hour minimum.

On November 12, 2013, the Board of Supervisors adopted Chapter 9.37 of the Stanislaus County Code. The Groundwater Mining and Export Prevention Ordinance of Stanislaus County became effective on December 12, 2013. It includes a process to allow the opportunity to appeal a decision made by the Department. Administrative appeals must be submitted in

writing to the Chief Executive Office and will be heard by a hearing board. The Hearing Board is comprised of the Chief Executive Officer, or designee, the Chairman and the Vice Chairman of the Board of Supervisors. The addition of the appeal process required the establishment of new Water Well Issuance Appeal Fees.

#### *Hazardous Materials State Surcharge for the Aboveground Petroleum Storage Tank Act*

On October 13, 2007, Assembly Bill 1130 (AB 1130) was signed by the Governor, which went into effect on January 1, 2008. This law transfers the responsibility for implementation, enforcement and administration of the Aboveground Petroleum Storage Tank Act (APSA) program from the Regional Water Control Board to the local Certified Unified Program Agency (CUPA). AB 1130 was written as an extension of the Federal Spill Prevention Control and Countermeasure (SPCC) plan found in Chapter 40 of the Code of Federal Regulations, part 112 designed to prevent oil discharges from reaching navigable waters or adjoining shorelines. The County serves as the CUPA for Stanislaus County.

AB1130 requires the owner or operator of a tank facility, with aggregate storage capacity of 1320 gallons or more of petroleum, to prepare an SPCC plan in accordance with the Federal Law, 40 CFR112. However, under APSA, CUPAs are required to conduct inspections at a tank facility with an aggregate storage capacity of 10,000 gallons or more of petroleum at least once every three years. The purpose of the inspection is to determine the owner or operator's compliance with the SPCC requirements of the APSA. On April 27, 2010, the Board of Supervisors approved an ordinance C.S. 1074 to amend existing fees to include a new fee for the Aboveground Petroleum Storage Act to fund the program costs associated with program administration.

In 2012, Assembly Bill 1566 delegated the Office of the State Fire Marshall (OSFM) the oversight responsibility of the APSA program. The OSFM, based on their budgetary needs, determined that a \$26 flat rate surcharge for each regulated Aboveground Storage Tank facility was required to fund the oversight of the program. The statewide \$26 surcharge will fund the two permanent full-time scientists hired by OSFM in July 2013. Alternative fee schedules were looked at based on the size of the facility; however, they proved to be cumbersome in determining the facility size and difficult to develop a new tiered fee schedule. The flat fee model was selected because it provided the necessary funding in addition to the ease of application and administration. The surcharge fee is scheduled to go into effect for Fiscal Year 2014-2015 with billing to begin in March of 2015.

The California Secretary for the Environmental Protection Agency (Cal/EPA) adjusted the Unified Program State Surcharge in accordance with the California Health and Safety Code (HSC), Division 20, Chapter 6.11, Section 25404.5(b), and the California Code of Regulations Title 27, Division 1, Subdivision 4, Chapter 1, Section 15240. Cal/EPA has defined four surcharges within the Unified Programs: General Oversight, Aboveground Petroleum Storage Act, Underground Storage Tank, and California Accidental Release Prevention Program. The Unified Program State Surcharge is used to fund the necessary and responsible costs for program implementation, ongoing maintenance, and oversight of the Unified Programs.

Approval to Set a Public Hearing on April 29, 2014, at 9:05 a.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees, and Amend or Eliminate Existing Fees for the Department of Environmental Resources

### *State Surcharge*

For Fiscal Year 2014/2015, the State Surcharge is set as follows:

CUPA Oversight	\$35 (unchanged)
Underground Storage Tank	\$15 (unchanged)
California Accidental Release Prevention Program	\$270 (unchanged)
Aboveground Petroleum Storage Act	\$26 (new)

### *Landfill Tipping Fee*

The Fink Road Landfill (Landfill) tipping fee was last raised in July of 2009 from \$30 per ton to \$33. Since that time tonnage deliveries to Fink Road Landfill have noticeably fallen. This decline in the amount of tonnage received was due in part to the troubled economy, a reduction in the number of days waste is being diverted from the WTE facility to the Landfill, and lastly to competitive pricing being offered to local haulers by landfills in Merced and San Joaquin Counties. As a result, County staff is proposing a reduction to the Landfill's tipping fee in an attempt to recapture some of the exported tonnage going to out-of-county landfills. The proposed tipping fee reduction is planned to be for a trial basis of 90 days. Should the reduced tipping fee accomplish its intended goal to increase tonnage deliveries sufficiently to exceed the \$3/ton loss, staff would return to the Board to recommend extending the reduction to the end of the fiscal year. Waste deliveries audits will be conducted after 30 and 60 days to evaluate the program's performance. If the performance does not exceed the \$3/ton loss it would be allowed to expire on September 30, 2014.

### *Oakdale Drop-off Bulky Item Fee*

On May 22, 2007, the Oakdale Drop-off Bulky Item collection program was replaced with a rotational bulky item collection event program. The rotational bulky item event collection program was later replaced with a twice per year curbside bulky item collection program provided by the franchise haulers for County residents with weekly garbage service. The Department is requesting to eliminate the \$10 fee from the existing Solid Waste fee schedule.

### *Public Meetings*

On March 10, 2014, the Department held two public meetings (Attachment B) to discuss the proposed new fees, adjusted fees and the eliminated fees. Information about the workshop was disseminated through the Department's normal dissemination process via email and postal service mailed to all parties affected or potentially affected by the fees. In addition, information regarding the proposed fee workshop was published in the Modesto Bee and posted on the Department's web site. The proposed fees are posted on the Department's website. The overall feedback from the workshop participants was favorable to all the proposed new and amended fees.

Approval to Set a Public Hearing on April 29, 2014, at 9:05 a.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees, and Amend or Eliminate Existing Fees for the Department of Environmental Resources

*Public Hearing*

Prior to levying a new fee or amending an existing fee, the County is required by Government Code Section 54985 et seq., to hold a scheduled public hearing as part of a regularly scheduled meeting of the Board of Supervisors. Department staff recommends that the Board schedule a public hearing for April 29, 2014, at 9:05 a.m., to introduce and waive the first readings of modified Ordinance to establish new and amend the existing fees of the Department of Environmental Resources. If approved, these fee changes for Environmental Resources will correspond with Fiscal Year 2014-2015, and will become effective on May 29, 2014, with the exceptions of the Landfill and the ash tipping fees which will become effective on July 1, 2014. The fee changes are summarized in the table, below.

**POLICY ISSUE:**

An ordinance of the Board of Supervisors is required to amend or establish fees for the Department. This action is consistent with the Board's priorities of A Safe Community, A Healthy Community, A Well-Planned Infrastructure System, and the Efficient Delivery of Public Services. By making funds available, the Department will continue to operate efficiently, effectively promoting a safe and healthy environment and improving the quality of life in Stanislaus County.

Approval to Set a Public Hearing on April 29, 2014, at 9:05 a.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees, and Amend or Eliminate Existing Fees for the Department of Environmental Resources

**STAFFING IMPACTS:**

The implementation of the new fees will not affect current staffing levels. Instead, any workload impact will be redistributed among existing staff.

This notice is an invitation to attend a public meeting to discuss proposed additions to the Stanislaus County Master Schedule of Fees for the Department of Environmental Resources (DER). The mission of DER is to promote a safe and healthy environment and improve the quality of life in our community. To achieve and maintain an appropriate level of protection, DER recognizes that it is necessary to have collaboration with the County's business community. It is the hope of this Department that you would make every effort to attend the upcoming workshop. Your input and expertise are valuable to our community to ensure that we accomplish this goal.

This workshop is being conducted prior to the Board of Supervisors' approval of the fee proposal. The proposed fee adjustments will be available beginning March 10, 2014, at [www.stancounty.com/er/index.shtm](http://www.stancounty.com/er/index.shtm). Please let us know if you would like a copy mailed or faxed to you.

**Please join our staff to discuss the proposed adjustments to the fee schedule. The new proposed fees are Well Permit Issuance Appeal and the State surcharge for Aboveground Petroleum Storage tanks. Fee adjustments will be made to the water well permits and the landfill tipping fees. If the fees are approved, they will become effective 30 days after passage, on May 29, 2014, or later if applicable.**

If you have questions, please feel free to call DER at: (209) 525-6700. Your feedback is important to us. If you are not able to attend, you may submit any comments in writing to the attention of Beronia Beniamine or Bryan Kumimoto at the above listed address, or e-mail your comments to [bkumimoto@envres.org](mailto:bkumimoto@envres.org).

## NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that on April 29, 2014, at 9:05 a.m., or as soon thereafter as the matter may be heard, the Stanislaus County Board of Supervisors will meet in the Basement Chambers, 1010 10th St., Modesto, CA, to consider the Introduction and Waiver of the First Reading of an Ordinance to amend existing fees for the Department of Environmental Resources to include two new fees for the Well Permit Issuance Appeal and the State surcharge for Aboveground Petroleum Storage Tanks, increase ash tipping and agricultural/irrigation water well permit fees, temporarily decrease the landfill tipping fee and eliminate the Oakdale drop-off fee.

ADDITIONAL NOTICE IS GIVEN that the 2014 Environmental Resources Fee Schedule will be available for review on April 18, 2014, in the Clerk of the Board Office, 1010 10th Street, Suite 6700, Modesto, CA.

NOTICE IS FURTHER GIVEN that at the said time and place, interested persons will be given the opportunity to be heard. Material submitted to the Board for consideration (i.e. photos, petitions, etc.) will be retained by the County. If a challenge to the above ordinance is made in court, persons may be limited to raising only those issues they or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the Board of Supervisors. For further information, contact Jami Aggers at (209) 525-6770, [jaggers@envres.org](mailto:jaggers@envres.org) or at 3800 Cornucopia Way, Suite C, Modesto, CA.
