Dear Mr. Terry Withrow, Chairperson

California *Education Code* Section 1240 requires visitations to identified schools, review information in the areas noted below, and report to you the results of the visits and reviews. I am pleased to provide, for submission to your governing board at a regularly scheduled November meeting, the annual report for fiscal year 2015-16 as required by *Education Code* section 1240(c)(2)(B) pursuant to the Williams Settlement. This report presents the results of my visitations and review at Stanislaus County Office of Education schools: John B. Allard Community School, Ceres Community School and Empire Community School.

The purpose of these visits as specified in California Education Code Section 1240 was to:

- Determine if students have "sufficient" standards-aligned instructional materials in four core subject areas (English language arts, mathematics, history/social science and science), including science laboratory equipment in grades 9-12 and as appropriate, in foreign languages, and health;
- Determine if there is any facility condition that "poses an emergency or urgent threat to the health or safety of pupils or staff";

Before proceeding with the report, let me define some basic terms:

- "Sufficient textbooks or instructional materials" means each pupil, including English language learners, has a standards-aligned textbook, or instructional materials, or both, to use in class and to take home.
- A school facility condition that poses an "emergency or urgent threat: is a "condition that poses a threat to the health or safety of pupils or staff while at school."
- "Good Repair" means the school facilities are clean, safe and functional as determined pursuant to the school facility inspection and evaluation instrument developed by the Office of Public School Construction [Facility Inspection Tool (FIT)] or a local evaluation instrument that meets the same criteria. Each school district that receives state funding for facilities maintenance is required to establish a facilities inspection system to ensure that each of its schools is maintained in "good repair."

BOARD OF SUPERVISORS
2015 OCT 28 P 2:43

My findings were as follows:

Instructional Materials

Schools were reviewed for sufficient textbooks and instructional materials.
