Approval of a Resolution of Intent to Participate in the Great California ShakeOut Annual Statewide Earthquake Drill

STAFF RECOMMENDATIONS:

1. Approve a Resolution of Intent to Participate in the Great California ShakeOut annual statewide earthquake drill to work toward becoming a safer community.

DISCUSSION:

For the past six years, on the third Thursday of October, Stanislaus County has participated in the Great California ShakeOut joining millions of people throughout California in raising awareness for earthquake preparedness. While some areas of California are more likely to have earthquakes than others, all of California is at a higher risk compared to the rest of the country. You could be anywhere when an earthquake strikes: at home, at work, at school, or even on vacation and should prepare to survive and recover quickly.

The Great California ShakeOut is a drill to practice how to be safer during big earthquakes by using *Drop, Cover, and Hold On*. If you are inside a building, move no more than a few steps, then *Drop, Cover and Hold On*:

- o DROP to the ground
- o Take COVER by getting under a sturdy desk or table, and
- o HOLD ON to it until the shaking stops.

This action offers the best overall level of protection in most situations. To react quickly you must practice often. You may only have seconds to protect yourself in an earthquake, before strong shaking knocks you down – or drops something on you. Practicing helps you be ready to respond.

Participants are also encouraged to look around now, before an earthquake, and identify safe places for protection when the shaking starts. Safe places include under a sturdy piece of furniture or against an interior wall in your home, office or school. Getting inside a doorway is no longer considered a safe place since in modern homes and buildings doorways are no safer and they do not protect you from flying or falling objects. Studies of injuries and deaths caused by earthquakes in the U.S. indicate you are much more likely to be injured by falling or flying objects (TVs, lamps, glass, bookcases, etc.) than to die in a collapsed building. Securing these objects can provide protection from injury.

This year, the Great California ShakeOut will again be statewide and will take place on October 20, 2016 at 10:20 a.m. According to the ShakeOut website, more than 9 million Californians have already registered to participate this year. Last year, Stanislaus County had over 88,000 people registered to participate including schools, colleges, local government, businesses, preparedness organizations, individuals and families. This year, that total is already 81,639 and counting.
