**DISCUSSION:**

The California Building Standards Commission (BSC), an entity within the California Consumer Services Agency, develops the California Building Standards Code known as the California Code of Regulations (CCR) Title 24. Cities and counties are required by State law to enforce the CCR Title 24 (Health and Safety Code Sections 17958, 17960, 18938(b), 18941, 18945, and 18948).

The BSC develops the State's Building Standards by amending the existing model codes, known as the International Building Codes, which are enforced nationally, and publishes the amendments along with the body of the model codes in twelve parts. The BSC adopted and approved the 2016 Edition of the California Building Standards, CCR Title 24, Parts 1, 2, 2.5, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 on January 19 and 20, 2016, published them on July 1, 2016, and they will become effective January 1, 2017. Attachment 1 to this item is the official bulletin issued by the BSC to the local jurisdictional Building Officials and other interested parties. The bulletin provides the local jurisdictions with the statewide effective date, availability of the code, and the notification of enforcement responsibility.

The list of CCR Title 24 is provided below:

- Part 1, 2013 California Administrative Code
- Part 2, 2013 California Building Code, Vol. 1 and Vol. 2
- Part 2.5, 2013 California Residential Code
- Part 3, 2013 California Electrical Code
- Part 4, 2013 California Mechanical Code
- Part 5, 2013 California Plumbing Code
- Part 6, 2013 California Energy Code
- Part 7, CURRENTLY VACANT
- Part 8, 2013 California Historical Building Code
- Part 9, 2013 California Fire Code
- Part 10, 2013 California Existing Building Code
- Part 11, 2013 California Green Building Standards Code
- Part 12, 2013 California Referenced Standards Code

The BSC publishes and adopts the CCR Title 24, in its entirety, every 3 years. The proposed ordinance, with specific minor modifications, will supersede and expressly repeal Stanislaus County Ordinance Number 1137 and amend Title 16 of the Stanislaus County Code to adopt the entire 2016 CCR Title 24 with the exception of Parts 7 and 9 of the approved standards. CCR Title 24, Part 9, 2016 Fire Code was adopted by the Stanislaus County Board of Supervisors on October 25, 2016, and Part 7 remains vacant. The proposed ordinance amendment is provided as Attachments 2 and 3, in both clean and strikeout versions.

The BSC does not mandate the adoption of specific administrative provisions within the model codes. Therefore, cities and counties must adopt ordinances specifically stating how they will administer the State's Building Standards. This allows local jurisdictions to make changes appropriate to each jurisdiction's need. As an example, this proposed ordinance amends the 2016 California Building Code, Chapter 1, Division II, Scope and Administration, in order to bring it in line with the County's business practices. Such adoptions and an express finding

---

statement must be filed with the BSC, but the majority of such changes are administrative in nature and do not constitute substantive amendments to Building Standards Code.

Each jurisdiction may draft requirements that are more restrictive than that mandated by the CCR Title 24 due to local topographic, geological, or climatic conditions. The only substantive changes to the code which was adopted by the BSC relates to the County's local adoption of Measure X, a local voter initiative entitled, "Primary and Secondary Sewage Initiative" approved by the voters of Stanislaus County in June 1990. Measure X requires that any urban development in the unincorporated areas of Stanislaus County occur only in conjunction with primary and secondary sewage treatment and is more restrictive than the building standards contained in the 2016 BSC. In accordance with Health and Safety Code Section 17958, the Board of Supervisors must make the findings contained in the proposed ordinance that such changes are reasonably necessary due to local climatic, geological, or topographical conditions. Measure X is currently adopted in the Stanislaus County Code Section 16.10.040 and is appearing in this amendment for update and informational purposes.

As mentioned above, this code is mandated by the State and passed down to the local jurisdictions to enforce without funding. Staff is currently investing resources through training and the purchase of books in order to enforce and implement the mandatory measures efficiently and in the least evasive means possible for the building community.

Stanislaus County Board of Supervisors Resolution No. 2016-514, approved on October 18, 2016, finds that the ordinance amending Title 16 of the Stanislaus County Code and adoption by reference of the California Code of Regulations Title 24, 2016 Edition, of the California Building Standards, is exempt from the California Environmental Quality Act (CEQA) in that, pursuant to CEQA Guidelines section 15061(b)(3), there is no possibility that the ordinance may have a significant effect on the environment.

**POLICY ISSUE:**

An update to Title 16 of the Stanislaus County Code is mandated as a result of the State's update to the California Code of Regulations. Up-to-date building standards, reflecting local business practices, are necessary for the development of a safe and healthy community.

**FISCAL IMPACT:**

The cost of preparing and implementing the proposed ordinance amendment, including public notices, purchasing of new code books, and staff training are covered through the Planning and Community Development Department's Building Permits Special Revenue Fund existing appropriations.

**BOARD OF SUPERVISORS' PRIORITY:**

The recommended actions are consistent with the Board's priorities of providing A Safe Community, A Healthy Community, and Efficient Delivery of Public Services by implementing the latest 2016 Building Code through incorporation of local amendments necessary to ensure development of a safe and healthy community while reflecting the County's business practices.

### **Enforcement Responsibility**

The California Building Standards Code is the established minimum standard for the design and construction of buildings and structures in California. State law mandates that local government enforce Title 24 standards or approved local ordinances (see Amendment by Local Ordinance that follows).

Exceptions are building standards applicable to hospitals, state buildings, public schools and colleges that are subject to enforcement by state agencies. For detailed information regarding enforcement responsibilities, refer to Chapter 1, Division 1, commencing with Section 1.1, of the California Building Code, Part 2, Volume 1 of Title 24.

[Reference Health & Safety Code (HSC) Sections 17950, 17958.7, 17960, 18938, 18941.5,]

### **Amendment by Local Ordinance**

Local ordinances that amend Title 24 building standards are subject to requirements of California law and must be enacted and filed for each edition of the California Building Standards Code. Ordinances generally must exercise more restrictive standards than the building standards approved/adopted by the commission. These amendments must be filed and accepted, as appropriate, with CBSC, the Department of Housing and Community Development or the State Historical Building Safety Board before they are enforceable at the local level.

The Local Code Ordinances page on the [CBSC website](http://www.bsc.ca.gov) ([www.bsc.ca.gov/Rulemaking/LocalCodeOrdinances.aspx](http://www.bsc.ca.gov/Rulemaking/LocalCodeOrdinances.aspx)) has a number helpful resources including the 2016 edition of the *Guide for Local Amendments of Building Standards*, examples of ordinances that were filed in accordance with state law, and the updated *California Code Adoption for Local Jurisdictions* webinar.

## **Significant Organizational Changes to Title 24**

The following identifies significant organizational changes in the 2016 edition of Title 24. For matters not listed here, please refer to the margin markings in the new publication, which identify deletions and additions to the code.

### **New banner: BSC-CG**

As prescribed in Health and Safety Code (HSC) §18940.5, CBSC was directed, to the extent feasible, to reference or reprint green building standards (CALGreen) in the relevant portions of Title 24. In accordance with this mandate, CBSC proposed the new CALGreen banner, BSC-CG, in an effort to provide easy application clarification for code users. The banner has been included in the matrix tables throughout the code to indicate CALGreen application. The specific scope of application and enforcement may be found in chapter one of each code part.

### **Part 1 California Administrative Code (CAC)**

A new section was added to the CAC in Article 4, Chapter 1, which identifies provisions for proposing state agencies to receive recommendations for developing green building standards from non-proposing state agencies that have expertise in green building in accordance with HSC §18930.5.

### **Part 2 California Building Code (CBC)**

The 2016 CBC is based on the 2015 International Building Code (IBC). The provisions of Chapter 34 of the 2012 IBC were relocated to the 2015 International Existing Building Code (IEBC). Accordingly, California amendments effecting building standards for existing structures have been moved to the 2016 California Existing Building Code, Part 10, Title 24. A reference table for further clarification of these changes is available on the [CBSC website \(www.documents.dgs.ca.gov/bsc/2015TriCycle/CrossRef-Table-CBCCh34-CEBC-P10-2016.xlsx.pdf\)](http://www.documents.dgs.ca.gov/bsc/2015TriCycle/CrossRef-Table-CBCCh34-CEBC-P10-2016.xlsx.pdf).

### **Part 5 California Plumbing Code (CPC)**

The 2016 CPC is based on the 2015 Uniform Plumbing Code (UPC). Several chapters in the 2015 UPC were reorganized, which include the following changes reflected in the 2016 CPC:

- Referenced standards formerly in Chapter 14 have been relocated to Chapter 17.
- Provisions regarding alternate water sources for nonpotable applications have been relocated from Chapter 15 to Chapter 16.

- Provisions regarding Nonpotable Rainwater Catchment Systems have been relocated from Chapter 17 to Chapter 16.

### **Part 10 California Existing Building Code (CEBC)**

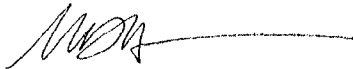

- The 2016 CEBC is based on the 2015 International Existing Building Code.
- As previously noted herein, California amendments effecting building standards for existing structures are now located in the 2016 CEBC. See the reference table on the [CBSC website](http://www.documents.dgs.ca.gov/bsc/2015TriCycle/CrossRef-Table-CBCCh34-CEBC-P10-2016.xlsx.pdf) ([www.documents.dgs.ca.gov/bsc/2015TriCycle/CrossRef-Table-CBCCh34-CEBC-P10-2016.xlsx.pdf](http://www.documents.dgs.ca.gov/bsc/2015TriCycle/CrossRef-Table-CBCCh34-CEBC-P10-2016.xlsx.pdf)).
- Part 10 (and Part 8) is still located in the Part 2, Volume 2 binder.

### **Emergency Building Standards**

The water conserving Emergency Building Standards that were adopted into the 2013 Code last summer are included in the 2016 Code. Those provisions affected Parts 1, 5 and 11 of Title 24. For more information about the Emergency Building Standards please refer to [Information Bulletin 15-04](#).

Questions or comments regarding the subject of this bulletin should be directed to this office at either (916) 263-0916, or via email at [cbsc@dgs.ca.gov](mailto:cbsc@dgs.ca.gov).

Sincerely,
