SUBJECT:

Public Hearing to Introduce and Waive the First Reading of an Ordinance to Add a New Mobile Food Facility 1-Day Community Event Fee for the Department of Environmental Resources

STAFF RECOMMENDATIONS:

1. Conduct a Public Hearing to introduce and waive the first reading of an ordinance to add a new Mobile Food Facility 1-Day Community Event fee for the Department of Environmental Resources.

DISCUSSION:

The Department of Environmental Resources (Department) charges fees for the services it provides in the Environmental Health Division. State law mandates that fees charged for services cannot exceed actual costs and must be used to cover the costs of implementing the programs. Since 2008, the Department's Mobile Food Facility Fee has been \$480 annually. To accommodate mobile food facilities that participate in food events of a limited duration, the Department can pro-rate the fee to \$120 on a quarterly basis where the permit is good for as little as one day, and up to 90 days.

A popular new trend in some California counties is holding one-day "food truck events" which draw mobile food facilities (food trucks) from a wide area surrounding the event location. It recently came to the Department's attention that the current \$120 fee, along with the requirement to have a vehicle inspection prior to permit issuance, may deter out-of-county food trucks from participating in one-day events that are held locally. This is due to the fact that the operators would need to take time out of their regular business activities to travel to Stanislaus County during the week in order for the inspection to be conducted.

To facilitate these types of events, the Department is proposing a new Mobile Food Facility 1-Day Community Event fee for food trucks that have a current permit, as well as a recent* satisfactory inspection report (*within the past 12 months), from another California county. The elimination of the inspection would decrease the necessary staff time and therefore the fee, for food trucks desiring to participate in one-day events. Using this approach, Department staff would simply need to verify the out-of-County permit/inspection report and estimates that one-half hour of staff time would be necessary. Food trucks must operate out of an approved commissary; however, the permitting County will have already verified that an approved commissary is being utilized. The public's health and safety would still be protected since this would only apply to already-permitted food truck operators that choose to operate in a single

day event. At the Department's current weighted labor rate, this equates to \$55.50 for a one-day community event fee (Attachment A).

Similar to the Department's existing approach to community events which typically include food booths, the food truck event coordinator would be required to provide the Department with the "Community Event Organizer Permit Application" packet at least 14 days in advance of the event. This is a requirement of California Food Code Section 114381.1. After receiving this information, the Department would work individually with the food trucks to verify their current permit and inspection information and collect the necessary fees.

The Department's food facility fees have not been changed since 2008. In order to align our fee descriptions with the California Retail Food Code, we are also proposing to change the names of two mobile food facility fee descriptions as follows: "Mobile Food Facility" will be revised to "Mobile Food Facility with Limited Food Preparation" and "Mobile Food Prep Unit" will be revised to "Mobile Food Facility."

The Department is asking the Board to adopt the proposed new fee schedule (Attachment A). The requested changes and additions are reflected on page 6 of the proposed new fee schedule. All other portions of the fee schedule remain unchanged and reflect the fees approved at the Public Hearing on May 9, 2017.

Public Meetings

On July 13, 2017, the Department held a public meeting (Attachment B) to discuss the proposed new fee. Information about the workshop was disseminated through the Department's normal dissemination process via postal service mailed to all parties affected or potentially affected by the fees. In addition, information regarding the proposed fee workshop was published in the Modesto Bee and the Department website on July 6th and 7th, 2017. After the Public Notice was published stating that the effective date would be September 25, 2017, the Department was made aware that the actual effective date, if approved on August 29th, would be September 28, 2017. The revised effective date was corrected at the public workshop and on the Department website on July 13, 2017. The overall feedback from the workshop participants was favorable to the proposed new fee.

POLICY ISSUE:

Prior to adding a new fee, the County is required by Government Code Section 54985 et seq., to hold a scheduled public hearing as part of a regularly scheduled meeting of the Board of Supervisors. At that time the Board may introduce and waive the first reading of an ordinance to establish new fees of the Department of Environmental Resources.

FISCAL IMPACT:

If the proposed new fee is approved, the increase in revenue for the Department of Environmental Resources is estimated to be \$2,200 (40 food trucks x \$55.50) in Fiscal Year 2017-2018. The proposed fee could reduce revenue particularly if Mobile Food Facilities only operated once or twice per year, however, a revenue decrease is likely to be minimal and if

new operators were to come to Stanislaus County, it may off-set any revenue loss or even increase revenue.

BOARD OF SUPERVISORS' PRIORITY:

The recommended actions are consistent with the Board's priorities of A Safe Community, A Healthy Community and the Efficient Delivery of Public Services. By honoring permits and satisfactory inspection reports from other California counties, the Department will continue to operate efficiently and effectively by promoting a safe and healthy environment and improving the quality of life in Stanislaus County.

STAFFING IMPACT:

Existing staff will support these recommended actions.
