Date September 1, 2016

MEMO TO: Stanislaus County Planning Commission

FROM: Department of Planning and Community Development

CONSIDERATION OF A CONFORMITY FINDING FOR THE APPROVED 2015-2017 CAPITAL IMPROVEMENT PLAN WITH THE

STANISLAUS COUNTY GENERAL PLAN.

Attached for your review is a report evaluating the various projects identified in the 2015-2017 Capital Improvement Plan (CIP) for conformity with the adopted Stanislaus County General Plan. Typically, the CIP identifies major projects or purchases over the next fiscal years

The Stanislaus County Board of Supervisors approved the 2015-2017 CIP on July 19, 2016. Pursuant to California Government Code §65103(c) and §65401, a county's CIP must be periodically reviewed and submitted to the county's planning agency for review in order to determine "conformity with the adopted General Plan or part thereof." Policy Three of the Circulation Element further requires the CIP to be consistent with the General Plan. This review ensures that capital improvements are coordinated with land use policies in the General Plan.

Many of the projects are planning and data gathering activities or are facility maintenance, upgrades, expansions, or improvements necessary for various departmental operations. Others include infrastructure improvements such as drainage facilities, road widening, or signalization of intersections. Still others include acquisition or improvements of parks or continued maintenance of roadways.

The attached report provides an assessment of the various projects and an assessment of conformity with one or more goals, policies, and/or implementation measures in the General Plan. The Stanislaus County General Plan was last adopted on August 23, 2016.

The Commission's finding that a proposed CIP item conforms to the adopted General Plan does not necessarily mean that the County endorses the project in a particular form. Individual public works projects and most other CIP projects still must undergo environmental review and receive Board approval before being carried out

#### **RECOMMENDATION**

Based on the analysis provided in this report, staff recommends that the Commission:

1. Find that the proposed activities, projects, and acquisitions as described in the CIP under the categories identified as "Approved/Funded", "Pending Implementation", "Future Project - Master Planned", and "Future Project - Pending Analysis" are

Capital Improvement Plan (CIP) General Plan Conformity. Planning Commission Memo September 1, 2016 Page 2

- consistent with various goals, policies, and implementation measures as defined in the General Plan and, therefore, are in conformance with the General Plan as a whole.
- 2. Find that acquisitions of all equipment, easements, properties, or rights-of-way necessary for implementation of the projects identified in the CIP would, by the direct relationship to the project as described, also be considered to be consistent with the General Plan.
- 3. Direct staff to forward this report and Commission findings to the Stanislaus County Board of Supervisors.

#### Exhibit:

- A General Plan Consistency Analysis
- B 2015-2017 Capital Improvement Plan \*\*
- \*\*NOTE: THE 2015-2017 CAPITAL IMPROVEMENT PLAN (ATTACHMENT B) is AVAILABLE FOR REVIEW AT THE COUNTY PLANNING DEPARTMENT OFFICE OR ON THE COUNTY'S WEBSITE AT: (http://www.stancounty.com/capitalprojects/FY2015-2017/pdf/capital-improvement-plan.pdf).

EXHIBIT B, IN ITS ENTIRETY, HAS BEEN PROVIDED TO EACH MEMBER OF THE PLANNING COMMISSION.
